

Daira Sabz

Consulting and Engineering Group

Consulting and Research Services

Driving Sustainable Impact through Multidisciplinary Expertise

At Daira Sabz Consulting and Engineering Group, we bridge academia, government, and industry through world-class consulting and research services that support evidence-based decision-making, sustainability strategy, and environmental resilience. Our ISO 9001 and ISO 14001 certifications reflect our commitment to quality, compliance, and continuous improvement in national and international contexts.

What We Offer

Our consulting services are delivered through an agile network of global and local experts, tailored to the specific demands of your project. Whether you are a government agency, development organization, or private enterprise, we work collaboratively to build flexible policies, effective strategies, and actionable solutions across diverse sectors.

✓ Core Consulting Areas:

- Environmental and Social Impact Assessment (ESIA)
- Natural Resource and Environmental Planning
- Climate Risk and Adaptation Consulting
- Mining and Infrastructure Consulting
- Hydrology and Hydrogeology
- Water Resource Management and Flood Risk Assessment
- Soil Science and Land Use Assessment
- Air Quality and Pollution Control
- Master Planning and Urban Design
- Regulatory Compliance and Due Diligence
- Corporate Sustainability and ESG Reporting
- Policy and Strategy Development

Our Research Services

We conduct policy-informed, participatory, and impact-driven research in collaboration with institutions, civil society, and international donors. Our capabilities include:

- **Baseline and Monitoring Surveys (lab, field, GIS-based)**
- **Feasibility Studies and Market Assessments**
- **Stakeholder Consultations and Participatory Appraisals**
- **Environmental Modeling (air, water, soil)**
- **Climate Change and Biodiversity Research**
- **Impact Evaluation and Cost-Benefit Analysis**

Why Choose Daira Sabz?

- **Multisectoral Expertise:** Working across environmental consulting, engineering, mining, energy, and business innovation
- **Global Reach, Local Insight:** Operating in Germany, Afghanistan, and internationally
- **Sustainability-Driven:** Aligned with the UN Sustainable Development Goals (SDGs), Paris Agreement, and Green Economy principles
- **Advanced Tools:** Use of GIS, remote sensing, hydrologic models, and impact forecasting software
- **Client-Centered Solutions:** Flexible, inclusive, and performance-based consultancy models

Let's work together to shape evidence-based, inclusive, and sustainable futures.

Your strategic partner for development and sustainability
