

Daira Sabz

Consulting and Engineering Group

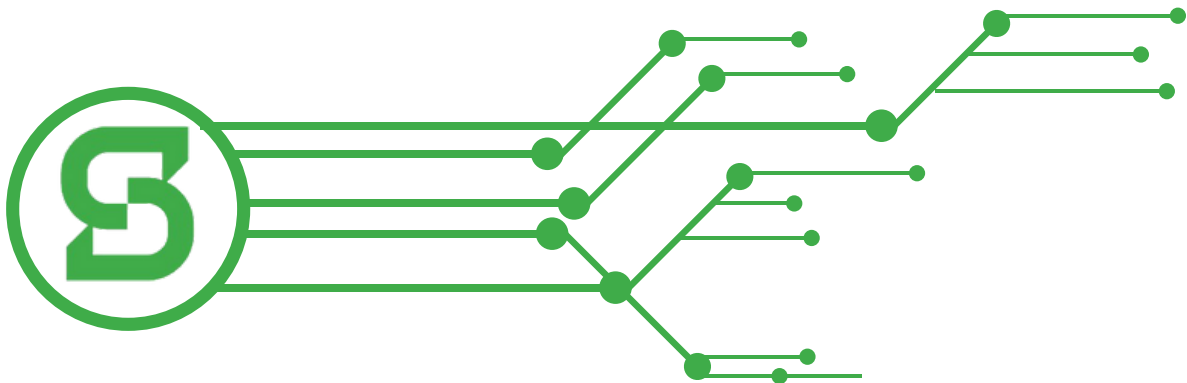

Digital Innovation and IT Services

At Daira Sabz Consulting and Engineering Group, we recognize that digital transformation is no longer optional—it's a necessity for modern organizations. Our Digital Innovation and IT Services are designed to help clients across sectors harness the full potential of technology to drive sustainable growth, operational excellence, and competitive advantage. Operating in Afghanistan, Germany, and internationally, our ISO-certified team delivers cutting-edge, secure, and scalable digital solutions tailored to each client's evolving needs.

Our Core Digital and IT Services

Digital Transformation & Strategy

We develop and implement future-ready digital strategies aligned with your business vision:

- Business process automation (BPA) and workflow reengineering
- Digital strategy roadmaps and transformation planning
- Enterprise architecture design and optimization
- Change management and organizational readiness

Cloud Computing & Infrastructure Optimization

Secure and scalable cloud solutions to optimize costs and boost performance:

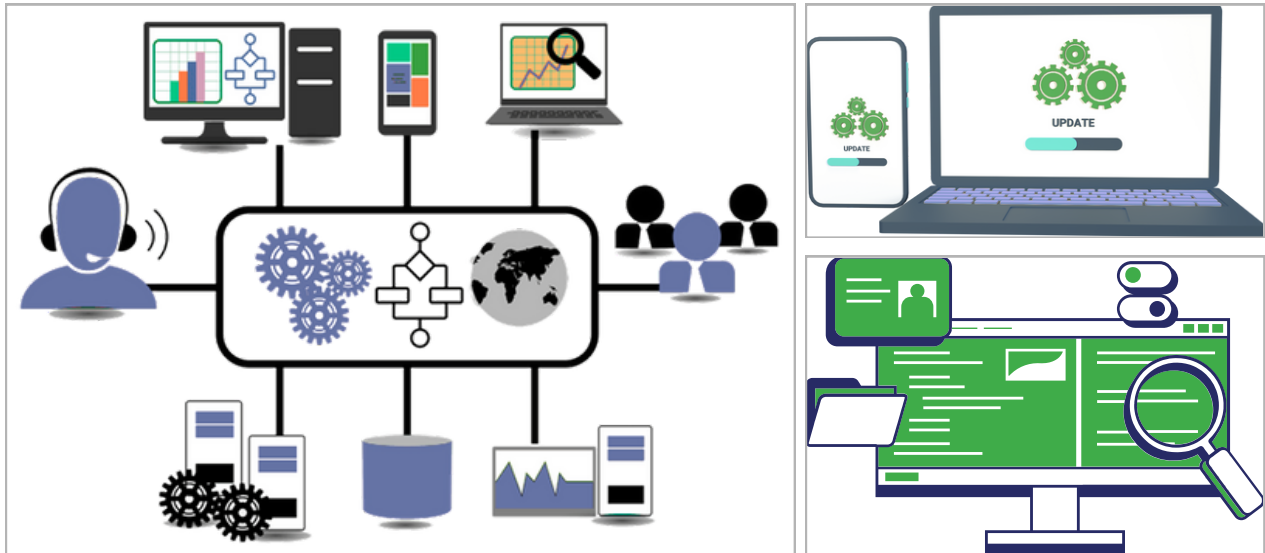

- Cloud strategy and migration (AWS, Azure, Google Cloud)
- Infrastructure-as-a-Service (IaaS) and Platform-as-a-Service (PaaS)
- Hybrid and multi-cloud management
- Cloud governance and cybersecurity

Enterprise IT & System Integration

We streamline your operations through robust IT architecture and system integration:

- ERP and CRM system implementation (SAP, Oracle, Salesforce)
- Custom software integration and middleware development
- IT infrastructure audits and upgrades
- IT governance, policies, and compliance (ISO 27001, GDPR, NIS2)

Data Analytics & Business Intelligence (BI)

Transform raw data into actionable insights:

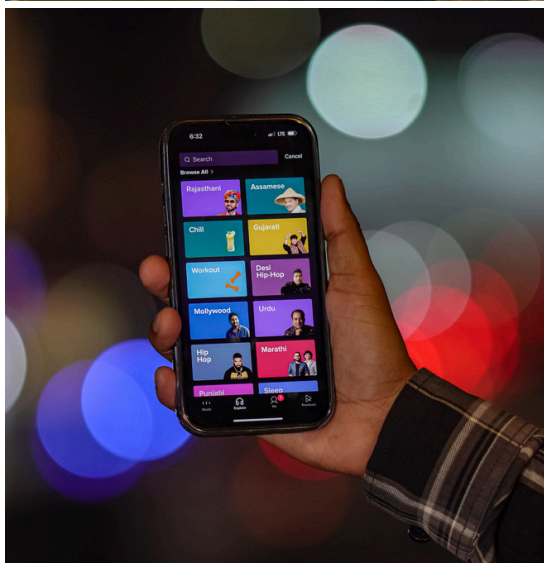

- Real-time dashboards and reporting
- Predictive analytics and data modeling
- AI-powered decision support systems
- Data warehouse and visualization tools (Power BI, Tableau)

Custom Software Development & UX/UI Design

Build user-centric, scalable software solutions:

- Full-stack web and mobile app development
- Agile and DevOps development practices
- API development and integration
- E-commerce platforms and payment gateways
- UX/UI design and prototyping

Cybersecurity & Risk Management

Ensure your data and infrastructure remain safe, compliant, and resilient:

- Cyber risk assessments and security audits
- Network security architecture and firewalls
- Data privacy and regulatory compliance (GDPR, ISO 27001)
- Threat detection, response, and penetration testing
- Identity and access management (IAM)

Emerging Technologies & Smart Solutions

Stay ahead with our future-oriented innovation services:

- Artificial Intelligence (AI) and Machine Learning (ML)
- Internet of Things (IoT) integration
- Blockchain applications and smart contracts
- Intelligent automation and robotic process automation (RPA)
- Smart city and smart infrastructure solutions
